

Title: AI Bootup Animation
Duration: 20s (30FPS)
Assist line

1

00:00 - 00:04

In the first second, four dots in the centre of the screen begin to appear one by one. After they all show up, the dots gently rotate around the centre as the text "Awaiting input" fades in.

2

00:04 - 00:06

At 00:04, the dots in the middle of the screen gather together at the centre, forming a black cube. The edges of the formed cube glow, extend and fade away as if they are water waves. The text "Activating" replaces the previous version.

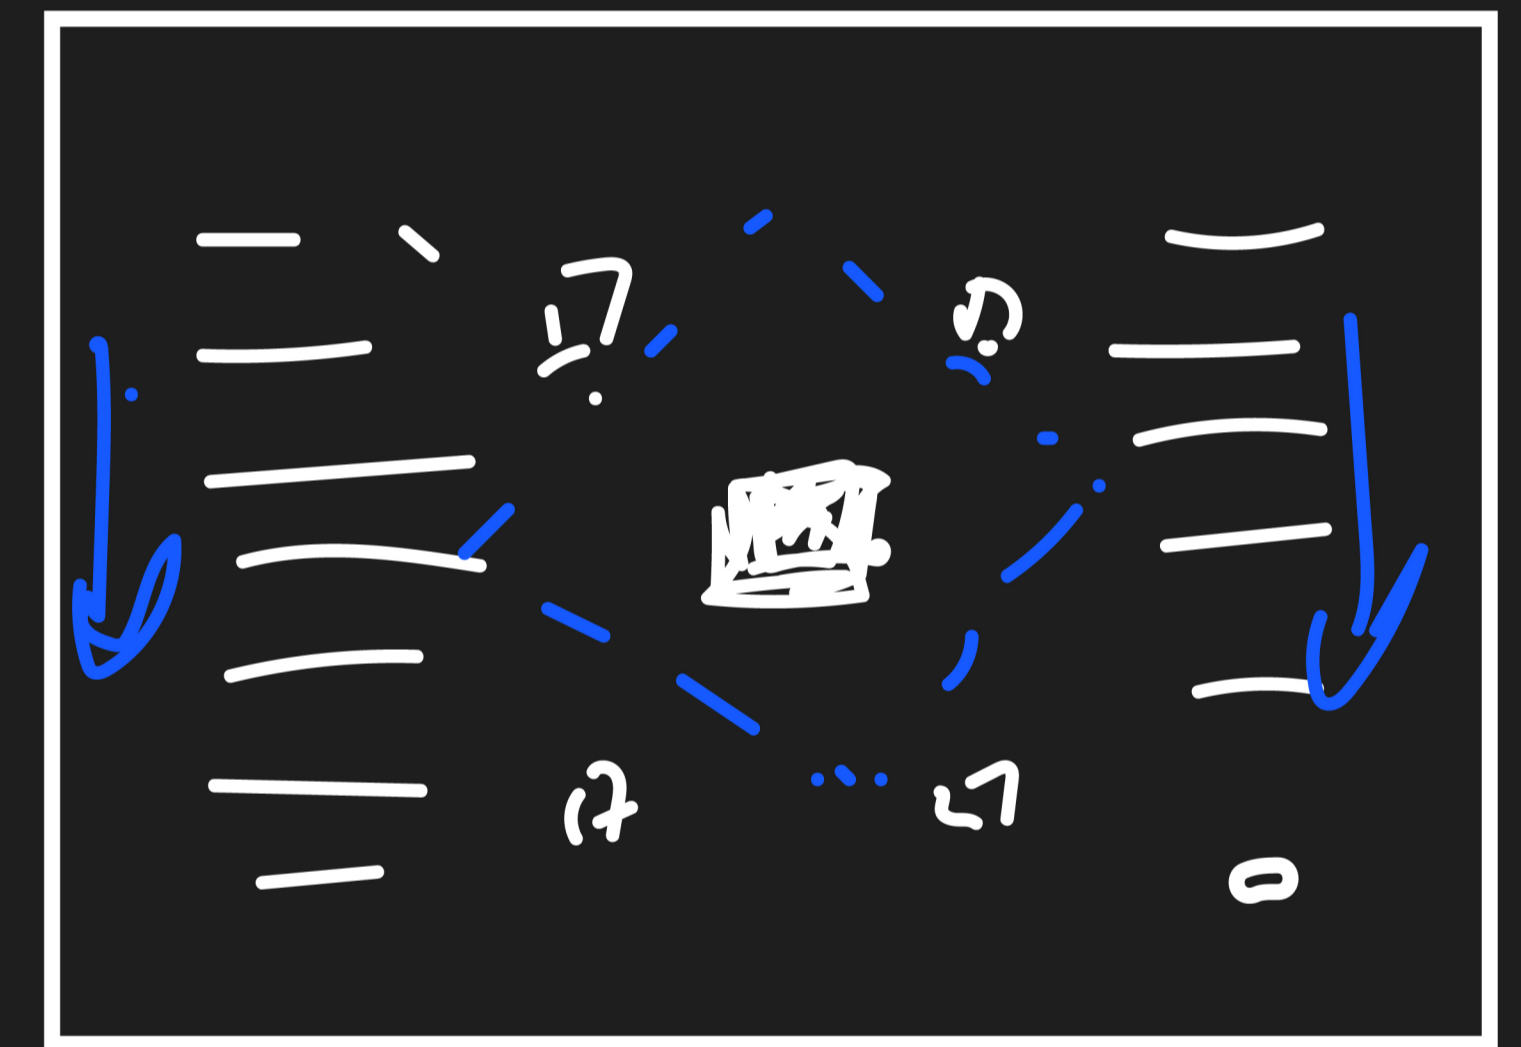

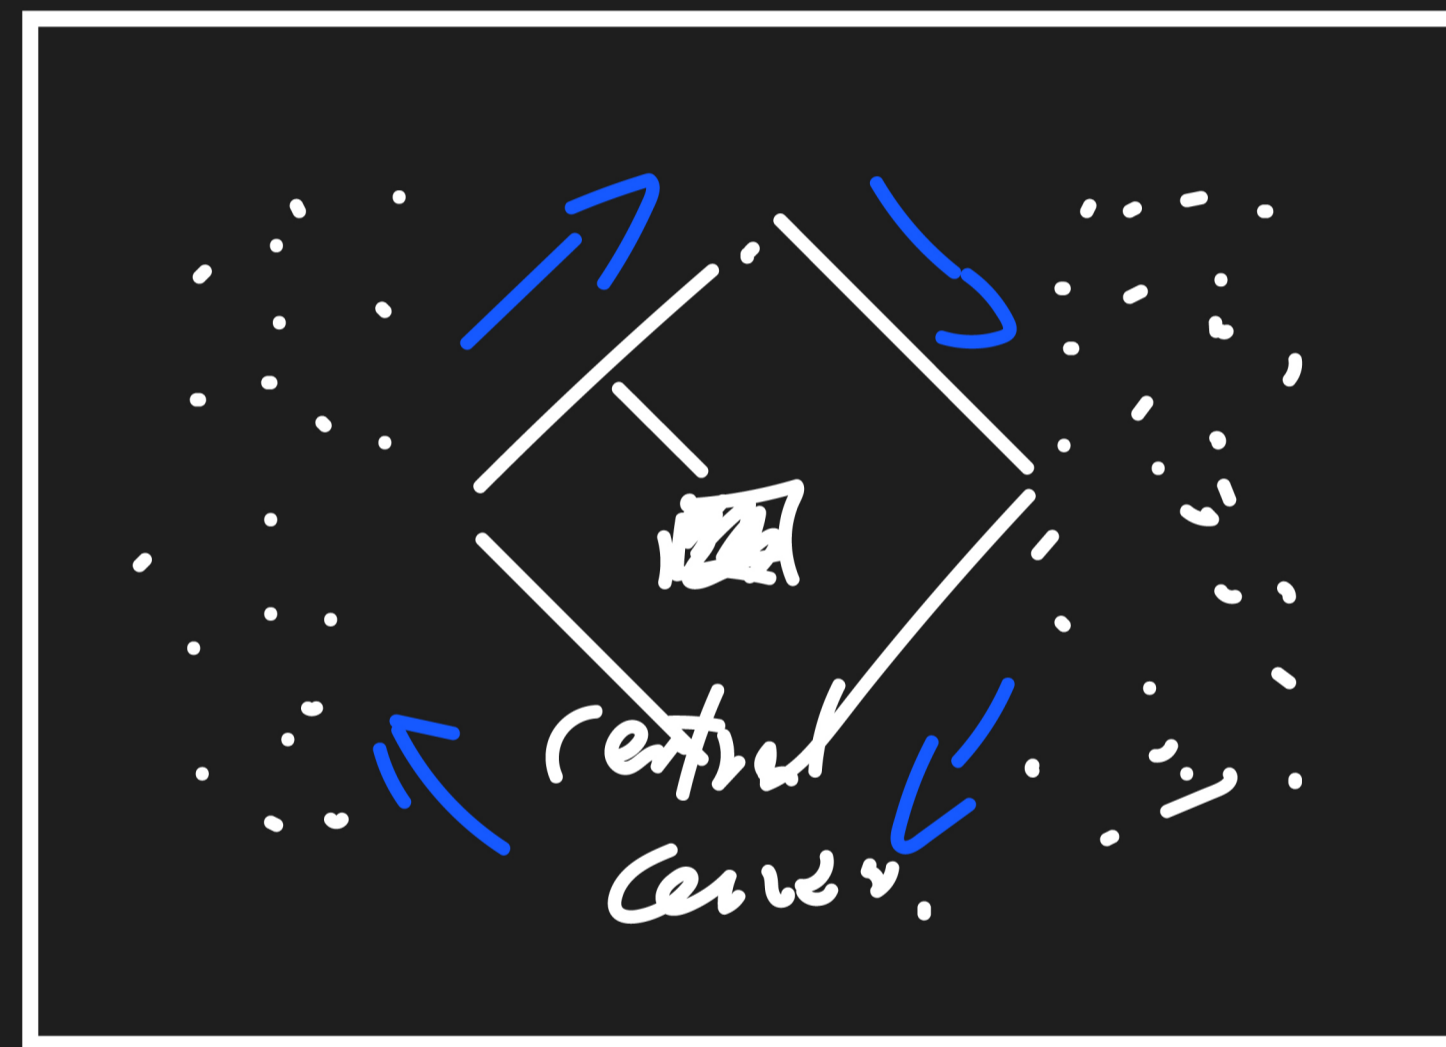

3

00:06 - 00:08

A path surrounding the cube begins to appear when the text in the middle shows as "Connecting". After 1s, more dots on each side begin to appear in order, forming a visually fading line.

4

00:08 - 00:12

As the path closes in the middle of the screen, more dots appear on each side and gradually fill in space. The text "Connected" Flashes quickly when all the other transition on the screen finishes.

5

00:12 - 00:15

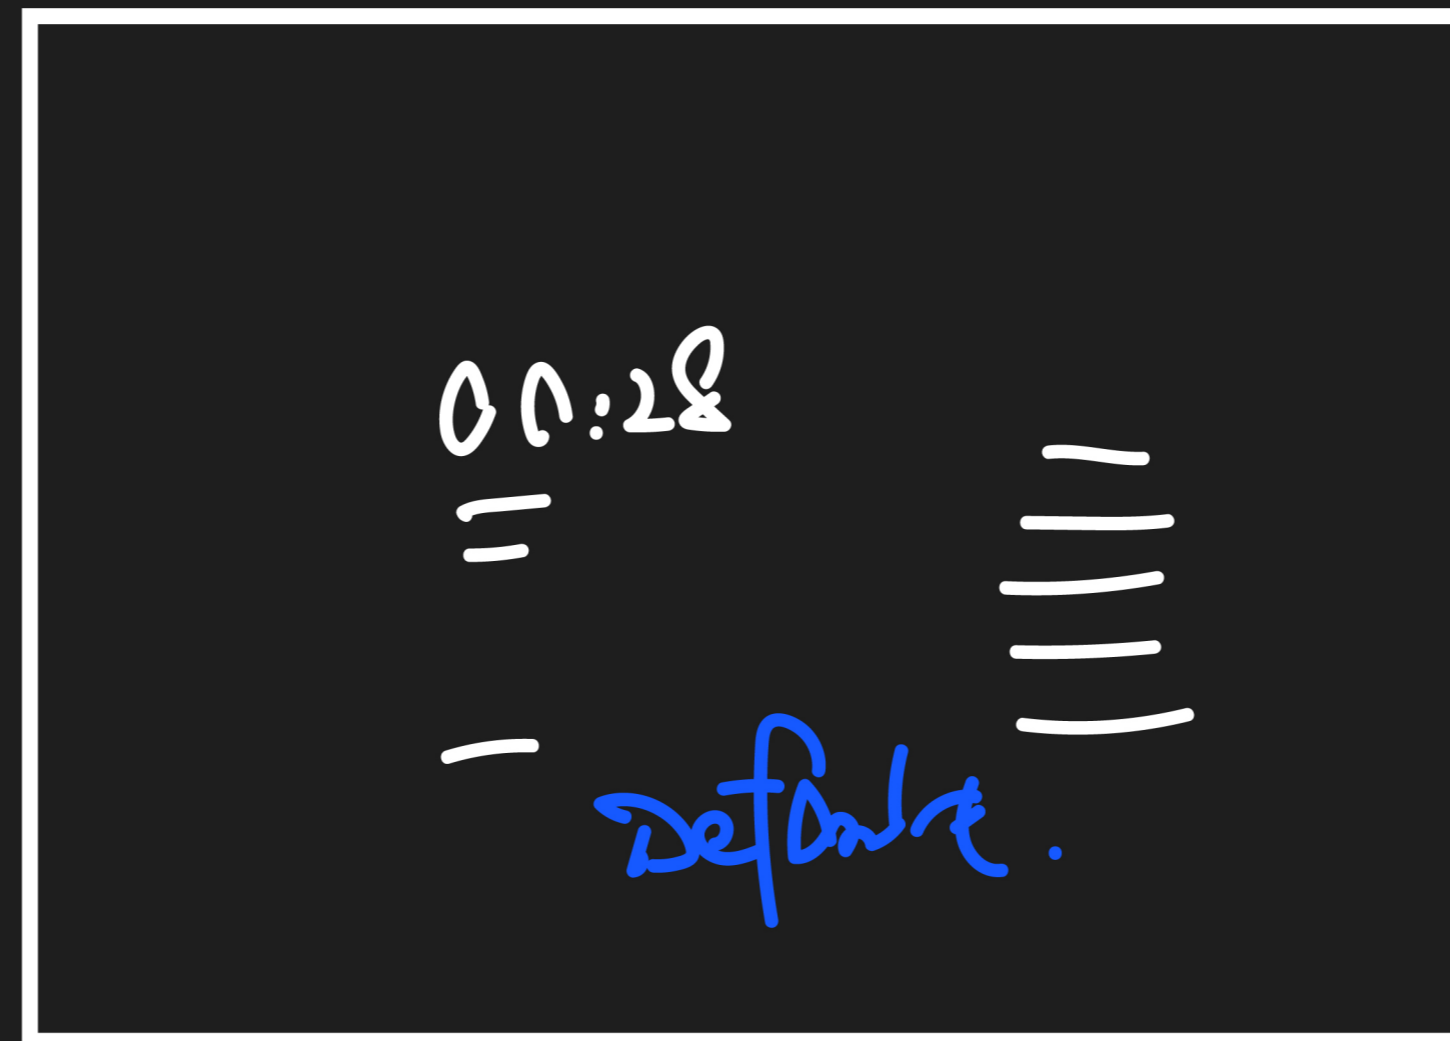

The screen turns dark slowly as the centre path of the cube begins to rotate clockwise. At the same time, The dots on both sides move slightly and start to be replaced by codes. The text "Central server" appears in the middle of the screen.

6

00:15 - 00:17

The cubical frame disappears as it finishes rotating for 90 degrees. The codes on both sides scroll downwards rapidly as four smaller cubes appear in the middle.

Title: AI Bootup Animation
Duration: 20s

7

00:17 - 00:19

The centre expands as more elements of UI begin to appear in screen symmetrically as the codes on both sides ease to disappear at the bottom of the screen.

8

00:19 - 00:20

The details of the default screen begin to appear, replacing the geometry shapes in the previous screen. The screen glitches slightly.
