

Luna's journey

-A little travel diary

In the early morning, Luna was awakened by the sound of birds chirping by the window.

The birds sang like a melodious flute played by a musician. Luna is going to start her long-awaited journey today.

Luna drove her little airplane to travel around the world. During the long trip, she passed the beautiful sunset and the sea. Finally, she arrived at an island.

A detailed illustration of a diver in a dark blue deep-sea environment. The diver, wearing a yellow shirt, a brown backpack, and a diving mask, is swimming towards the viewer. In the upper center, a large, dark red mouthfish with its mouth wide open, showing sharp white teeth and a glowing light inside, is the focal point. Two small fish, one blue and one yellow, are trapped inside the mouthfish's mouth. In the top left corner, a large, brown, tentacle-like structure with circular patterns is visible. The background is dark with some blue and green aquatic plants and small white bubbles.

She dived into the sea and wanted to explore the depths of the oceans.

She saw the beautiful fishes glowing in the deep sea and the law of the jungle in the ocean.

After Luna explored the ocean, she entered the forest. The forest was full of beautiful plants and mysterious animals.

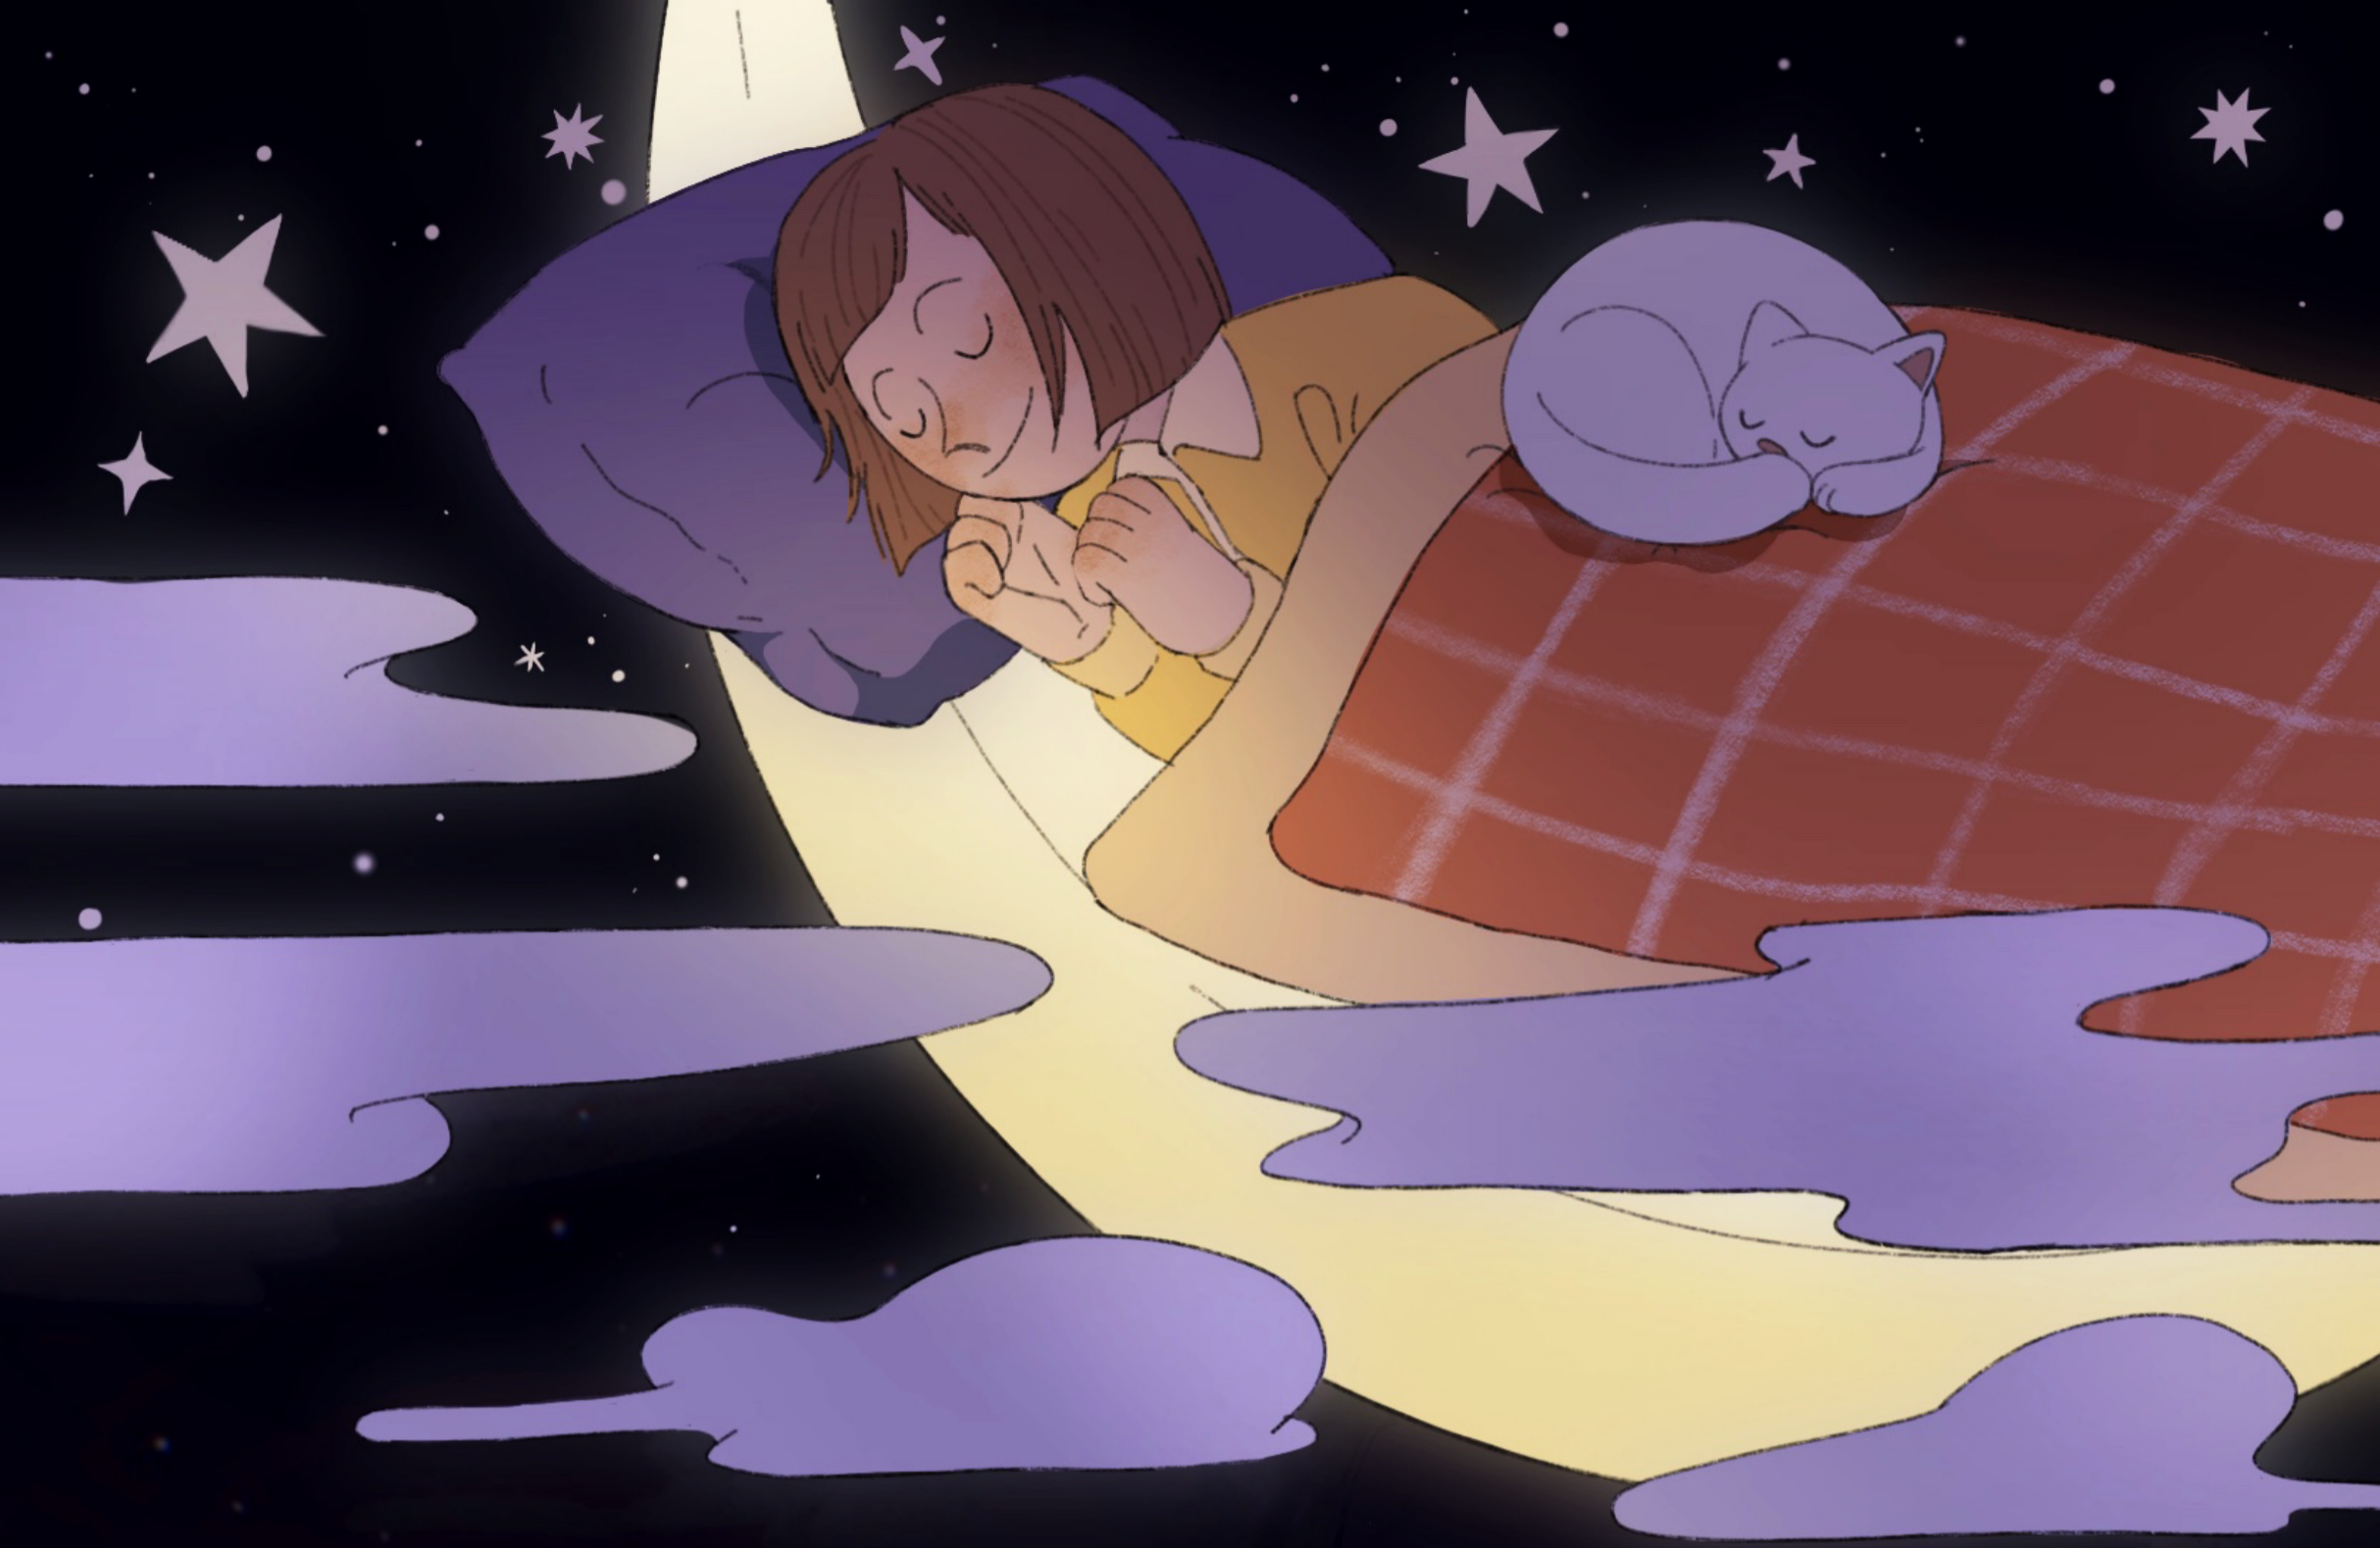

When she saw the skeleton of a dead deer covered with plants and flowers, she felt the passage of time and the reborn of the new life.

Later, Luna went to the glacier, and she watched the glacier gradually melting. The animals have lost their homes. She felt sad seeing this scene.

After a long journey, Luna returned home, the most secure and warm place.

She finally can with her cat fell into sweet dreamland.
